**Topic Selection Update**

We continue to receive topic suggestions from faculty and staff via the topic suggestion site. We've also been to several Advisory Committee meetings to introduce the QEP to our community partners and have received a good number of suggestions from faculty and staff to forward the QEP site to any graduates for whom they might have an email address. In addition, we've also asked the officers of the MGTC Alumni Association to forward the site to their members.

The QEP is "a carefully designed and focused course of action that addresses a well-defined issue or issues directly related to *improving student learning*."

**QEP Topic Selection Committee**

This committee will be charged with consolidating all of the topic suggestions into similar themes, which can be a lengthy process. Our hope is to whittle down the topics into around 7-10 themes that will then be researched for inclusion as a 'doable' theme. Then we'll vote on those themes that make the cut!
